Dominoes

Use these four dominoes:

Arrange them in a square like this:

Each side of the square must add up to 7.
Touching numbers do not have to match.

Find a set of four dominoes that will add up to 8 on each side of the square

Learning and Teaching Objectives

- Use drawings or suitable resources to help visualise the problem
- Choose and use an appropriate method of recording
- Add several small numbers
Dominoes Solution
