

### Money Bags

You have been asked to bury some bags of money on an island.

The money has been divided into nine separate bags containing these amounts of money:

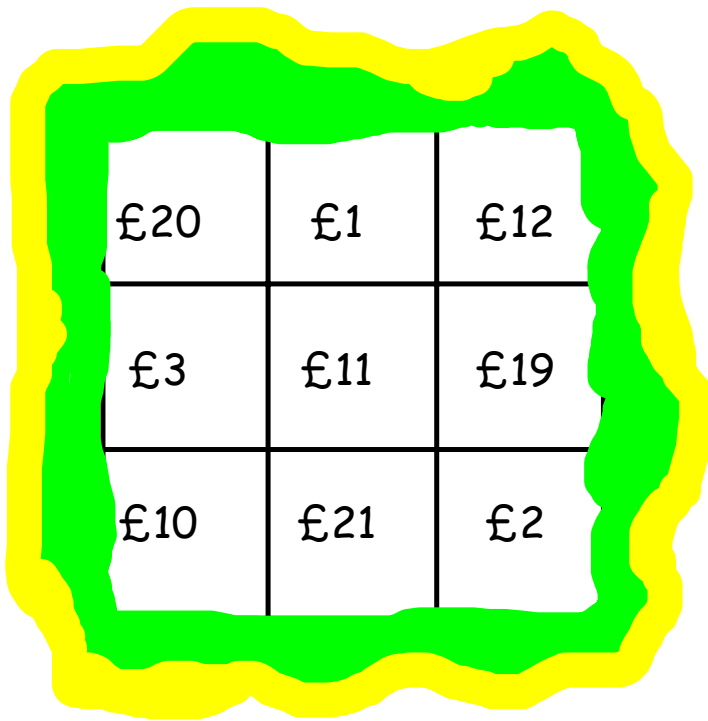

You must bury the money in a three by three grid so each row and column, either horizontal, vertical or diagonal, has £33

### Learning and Teaching Objectives

- Use a systematic approach to solve the problems
- Choose and use a recording method to keep track of what has been tried
- Describe a rule of a pattern

# Money Bags Solution

£20	£1	£12
£3	£11	£19
£10	£21	£2
