Headteachers' Breakfast Briefings take place within each Local Learning Network, three times per year. They are aimed at providing primary Headteachers with key information about significant national and local developments, new initiatives and legislative changes that will have important implications for their school.

Timely information of this sort, and the opportunity to think about the strategic significance for your school, alongside colleagues, is the main purpose of the briefings.

It's also an opportunity for you to share your news, views and issues with Primary Excellence Project (PEP) heads and Partnership Managers, and to set the agenda for future briefings.

## The Fourth Way:

### The inspiring future of educational change with Andy Hargreaves

 Headteachers & Senior Management  1 & 2  1 day (0930-1700)

 £100.00 per delegate/£160.00 per 2 delegates/£220.00 per 3 delegates Kent LA

In this brand new workshop, Andy Hargreaves will consider the way ahead for education leaders beyond the constraints recently imposed by standardisation. The workshop is suitable for leaders of all kind, both within and outside schools. It deals with fundamental issues about learning. The workshop briefly covers the ways that have supported change in education in the late 20th and early 21st centuries. Using evidence drawn from diverse research projects, Andy selects four examples of hope for the future: the world's highest performing education system; the most turned around school district in England; a professional network of 300 underperforming schools; and outstanding instances of community organisation. Andy will challenge you to think beyond your immediate comfort zone. He will confront the quick fix mentality that drives schools to delusional short term gains at the expense of deeper and profound learning. He will use case studies from schools where improvement lasts and growth is sustainable. Drawing on evidence from health, sport and the business sectors, Andy will consider what leaders can learn from each other, for the benefit of society. Andy will take us beyond the dead-ends of standardisation and divisiveness to a future in which all teaching can be a high skill, creative and life shaping mission. There will be an excellent balance of thought provoking input and lively, co-operative learning activities.
