Schools' Personnel Service

How to calculate your price – The price will comprise “Entry Price” plus “Package price per staff member” This will give an annual cost for the service which will be charged monthly.

Your monthly rate will be calculated using the following formula: Package rate x number of heads* divided by 12
Your charge for the year will be fixed for 12 months unless your staff numbers change by +/- 5%

*Staff numbers are counted as all the staff employed by the school, including LSAs, relief staff and supply teachers. LA funded staff are not included unless also employed by the school.

Upgrades: Four months' notice is required if a school wishes to change package or if its status changes, e.g. voluntary to foundation. However, if you wish to change or upgrade within a shorter timescale, you will be charged the *difference* between your old monthly rate and new monthly rate multiplied by four. This will be collected as a one-off payment.

Package	Code	Price £

Consultancy days consist of 360 minutes (6 hours) which can be used as a whole day or in smaller segments.

Set up charges: For schools buying contract administration for the first time (usually through a Standard, Premium or Premium Plus Package), there will be a one-off set up fee. This is set at £17 per employee in the school or £40 per head if the issuing of retrospective contracts is required. There will also be a charge of £23 per employee where the school changes its status and/or where contracts are reissued.
