

- Add new side
- Move between sides
- Story board
- Run slideshow

1. Click on Add new slide

The view will change to this   
(Close the blue window when you don't need it)

You can add a background or margin (border) by selecting the one you want in the folders. It will be applied to all slides.

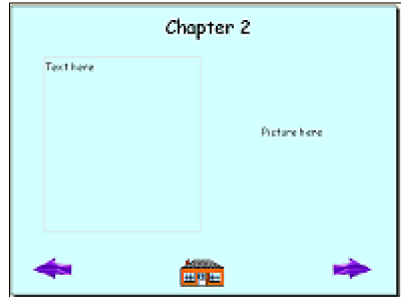

2. Add buttons to page.  
Click on . On the resources tab

Click on the house and then on the up folder button. You should now see the folder containing buttons.

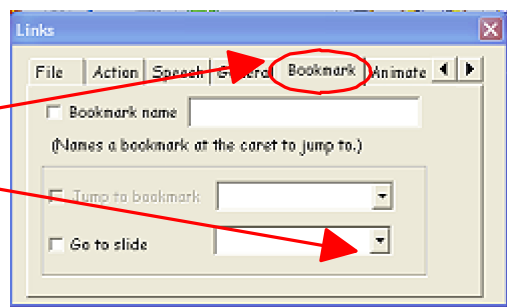

3. Create all slides.  
The title on each slide will become the name for the slide eg chapter

You can download a template with all the links created from:  
[www.kented.org.uk/ngfl/qca/year6/animated.htm](http://www.kented.org.uk/ngfl/qca/year6/animated.htm)

4. Add a link to a button

- Click on a button to select it.
- Click on and select bookmark tab
- Select the slide you want to link to
- Repeat for all buttons

Why not add video, voice and animations to your pages to make them come alive.

See our other helpsheets to find out how.
