Instructions:

This resource can be used both with the **Pixie** and your **hand-held metal detectors**.

To use the **Pixie jacket** simply print this resource onto card.

Cut, fold and glue the first page to make your own snowman Pixie Jacket.

Place the large snowballs under your clear Pixie mat.

The small snowballs can then be used as phonemes to deliver to the large snowballs.

For using your **metal detectors**, print out the small snowballs and attach 2x 2p coins to the reverse.

Fill three trays with dry porridge oats.

Then hide some of the phonemes in the trays for the children to find.
